Reference Plasmacluster technology which is Sharp' original

It is harmless for the human body and secure technology. There is

effectiveness for Electrostatic restraint, deodorization, the virus removal, etc.

Step1; Ions are released. Plasmacluster ions, the same position and negative ions found in nature, are generated by plasma discharge and released into the air.

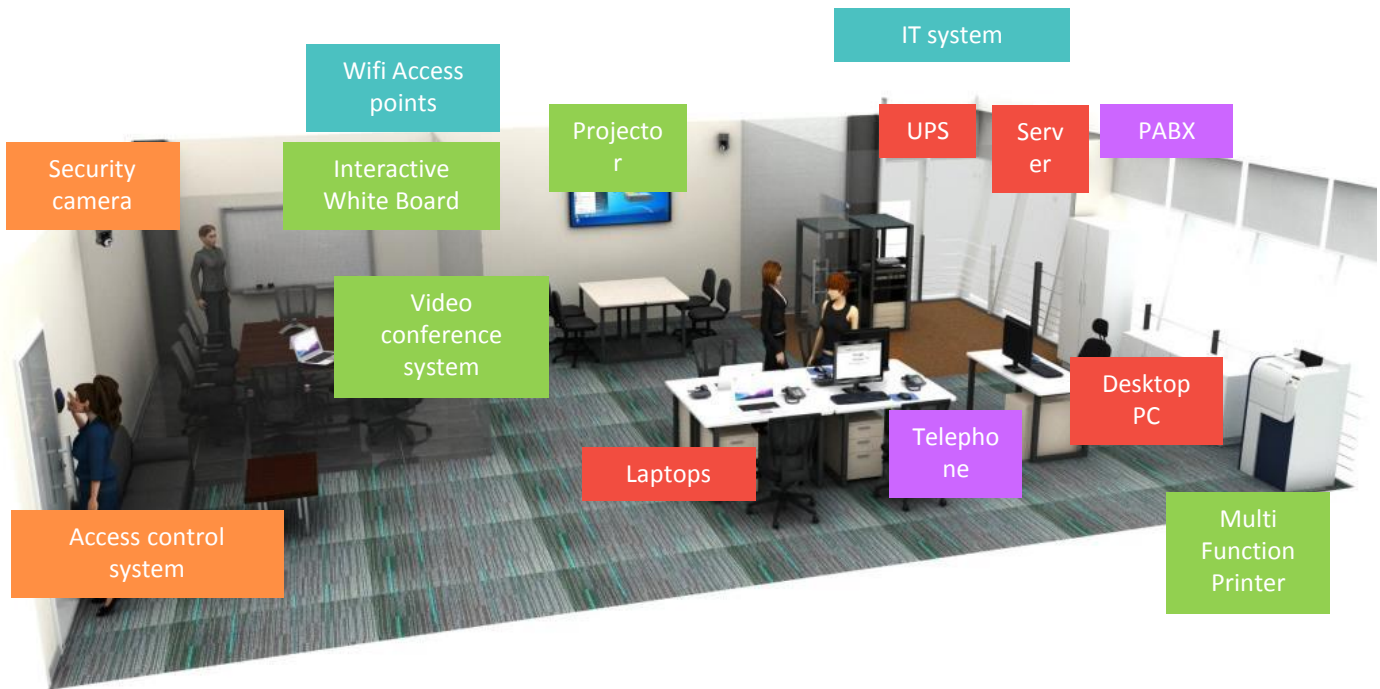

Step2; The ions act on airborne microbes. The ions from hydroxide(OH) radicals that are highly oxidizing only when they adhere to the surfaces of mold, bacteria and viruses. They instantly remove the hydrogen from the surface proteins, breaking them down.

Step3; The broken-down components return to the air as water. The hydroxide(OH) radicals combine with hydrogen(H) to form water(H2O), which returns to the air.
